Filing Description:

RE:Genworth Life Insurance Company ("GLIC")

Company NAIC No: 70025

Policy Forms:6484 et al, 50000 et al, 50001 et al, 50003N, 50003P, 60394 et al, 60407 et al, 50020 et al, 50021 et al, 50022 et al, 60491 et al, 60494 et al, 7021 et al, 62100D, 62100R

On December 10, 2012 GLIC submitted a filing with justification for a rate increase of 20% for all benefit periods. On March 8, 2013, the Department approved the rate increases.

On September 23, 2014 GLIC requested a rate increase of 20% for policies with lifetime benefit periods and 18% for policies with limited benefit periods. On December 29, 2014, the Department approved the requested increases. The attached letter summarizes the requested rate increases and approvals for these forms.

This rate increase filing is being made to: 1) continue to work to achieve the actuarial equivalent of rate increase originally requested in 2012; and 2) begin to implement the required increases that were included in GLIC's 2014 asset adequacy testing. To achieve these goals, GLIC is requesting an 83% rate increase for policies with lifetime benefit periods and a 33% rate increase for policies with limited benefit periods. These amounts include 1) the balance of the 2012 rate increase request that was not approved and 2) an additional 40% rate increase which was included in GLIC's 2014 asset adequacy testing. The updated assumptions used in GLIC's 2014 asset adequacy testing also have been used in this filing.

The details for the basis of these amounts are shown below.

The requested 83% rate increase for policies with lifetime benefit periods is calculated as follows:

2012 Justifiable Rate Increase Amount*: 88%

Additional 2015 Request: 40%

Approvals to Date: 44%

Total 2015 Rate Increase Request: $((1.88)*(1.4))/(1.44) - 1 = 83\%$

The requested 33% rate increase for policies with limited benefit periods is calculated as follows:

2012 Justifiable Rate Increase Amount*: 35%

Additional 2015 Request: 40%

Approvals to Date: 41.6%

Total 2015 Rate Increase Request: $((1.35)*(1.4))/(1.416) - 1 = 33\%$

State: Pennsylvania **Filing Company:** Genworth Life Insurance Company
TOI/Sub-TOI: LTC031 Individual Long Term Care/LTC031.001 Qualified
Product Name: PrePCS 2015 - IFA Round 3
Project Name/Number: PrePCS 2015 - IFA Round 3/PrePCS 2015 - IFA Round 3

*Note that the 2012 nationwide justifiable rate increase was 88% for policies with a lifetime benefit period and 35% for policies with a limited benefit period. After conversations with the Department, GLIC limited the rate increase requested to 20% for all benefit periods. However, when calculating the requested rate increase above, GLIC has used the original justifiable rate increase amount.

None of the rate increases sought in this filing would be implemented until previously approved increases have been fully implemented.

Please note:

- These requested amounts are significantly less than the amount GLIC can justify in total.
- Consistent with GLIC's 2014 Asset Adequacy Testing, we anticipate filing future rate increase requests of similar magnitude.
- GLIC will continue to monitor the experience of this block and will react according to the experience development.
- This filing, with self-limited lifetime loss ratios, does not imply the acceptance of the lifetime loss ratios contained in this filing as an acceptable measure of profitability or as a minimum threshold for future rate increase filings.

These existing policy forms provide benefits for institutional confinement and/or home care. They are collectively referred to as the Pre-PCS Series of policies and were issued in your state from September 1988 through January 1999. They are no longer being marketed in any state. Nationwide, the last policies for these forms were issued in 2003. The company is requesting the approval of a premium rate increase on the above listed forms and all associated riders due to adverse experience.

The assumptions applied to the attached projections are based on Genworth's actual nationwide in-force experience with adjustments as considered appropriate for future projections, based on expected differences in experience due to either policy characteristics or underwriting criteria. Best Estimate assumptions for voluntary terminations, mortality, and morbidity do not include any provision for contingency or risk margin. Updated claim severity assumptions led to the significant strengthening GLIC made to its claims reserve in the third quarter of 2014. Claimants are expected to stay on claim longer and use more of their available benefits than had been previously assumed. As a result of updated claims assumptions, lifetime loss ratios have increased. The exhibits attached were calculated with these updated assumptions.

GLIC will offer insureds affected by the premium increase several options to change their benefits in order to maintain a premium level reasonably similar to what they were paying prior to the rate increase. The benefit and rate combinations are consistent with the rate tables approved by the Department at the original filing.

Additionally, we will make an optional limited benefit available to those policyholders who wish to elect a limited paid-up Long Term Care insurance benefit. This option provides a paid-up policy with benefits equal to the total of premium paid, less any claims paid. While we strongly encourage policyholders to maintain coverage, we believe it is important to provide a comprehensive set of options.

Thank you for your assistance in reviewing this filing.

RE: Proposed aggregate 59.8% rate increase (83% on unlimited BPs and 33% on limited BPs) on 4,018 PA policyholders of Genworth Pre-PCS LTC forms 6484 et al, 50000 et al, 50001 et al, 50003N, 50003P, 60394 et al, 60407 et al, 50020 et al, 50021 et al, 50022 et al, 60491 et al, 60494 et al, 7021 et al, 62100D, and 62100R; The Pre-PCS Block; Pennsylvania Insurance Department ID # GEFA-130373045

Dear Mr. Jackson:

The Pennsylvania Insurance Department has received and conducted a preliminary review of the above captioned filing. In order to properly review the filing, we are requesting the following information. To facilitate a timely review, we request this information be provided within 14 days of the date of this letter. If you have any questions or difficulties in providing the data within this time frame, please call me at (717) 783-2117.

The proposed rate increase will be published in the Pennsylvania Bulletin on 2/20/16. The initial 30-day comment period will end on 3/20/16. Statutorily, the Department must either approve or disapprove this filing within 45 days after the end of the public comment period.

Please furnish the following information to the Department.

1. Note that Exhibit Ia in the filing shows the nationwide historical and projected calendar-year earned premium and incurred claims for the Pre-PCS block. It shows all benefit periods and restates the nationwide experience since 2012 assuming that all states received the 20% rate increase that was approved in 2013 in PA and the similar 20% for lifetime BPs and 18% for limited BPs increase that was approved in PA in 2014.

Exhibit Ib is similar to Ia but shows only lifetime benefits periods. Exhibit Ic is similar to Ia but displays only limited benefits periods.

Please create alternate tables in an Excel that are similar to Exhibits Ia, Ib, and Ic but restate the nationwide historical and projected earned premium so that it all appears to be earned since inception in 1988 at the current Pennsylvania rate level.

2. The cover letter mentions that insureds will be offered options to mitigate the effects of the rate increase? In particular, will insureds be able to reduce their daily benefit, increase their elimination period, or decrease their benefit period in order to lessen the effect of the rate increase?

January 27, 2016

Pennsylvania Insurance Department

RE: Genworth Life Insurance Company ("GLIC")

Company NAIC No: 70025

SERFF Tracking No: GEFA-130373045

Policy Forms: 6484 et al, 50000 et al, 50001 et al, 50003N, 50003P, 60394 et al,
60407 et al, 50020 et al, 50021 et al, 50022 et al, 60491 et al, 60494 et
al, 7021 et al, 62100D, 62100R

On December 10, 2012 GLIC submitted a filing with justification for a rate increase of 20% for all benefit periods. On March 8, 2013, the Department approved the rate increases.

On September 23, 2014 GLIC requested a rate increase of 20% for policies with lifetime benefit periods and 18% for policies with limited benefit periods. On December 29, 2014, the Department approved the requested increases. The table below summarizes the requested rate increases and approvals for these forms:

Filing Date	SERFF Number	Request for Policies With		Approval Date	Approval for Policies With		Cumulative Approval From 2012	
		Lifetime Benefits	Limited Benefits		Lifetime Benefits	Limited Benefits	Lifetime Benefits	Limited Benefits
December 10, 2012	GEFA-128749315	20%	20%	March 8, 2013	20%	20%	20%	20%
September 23, 2014	GEFA-129719845	20%	18%	December 29, 2014	20%	18%	44%	42%

This rate increase filing is being made to: 1) continue to work to achieve the actuarial equivalent of rate increase originally requested in 2012; and 2) begin to implement the required increases that were included in GLIC's 2014 asset adequacy testing. To achieve these goals, GLIC is requesting an 83% rate increase for policies with lifetime benefit periods and a 33% rate increase for policies with limited benefit periods. These amounts include 1) the balance of the 2012 rate increase request that was not approved and 2) an additional 40% rate increase which was included in GLIC's 2014 asset adequacy testing. The updated assumptions used in GLIC's 2014 asset adequacy testing also have been used in this filing.

The details for the basis of these amounts are shown below.

The requested 83% rate increase for policies with lifetime benefit periods is calculated as follows:

2012 Justifiable Rate Increase Amount*: 88%
Additional 2015 Request: 40%
Approvals to Date: 44%
Total 2015 Rate Increase Request: $((1.88)*(1.4))/(1.44) - 1 = 83\%$

The requested 33% rate increase for policies with limited benefit periods is calculated as follows:

2012 Justifiable Rate Increase Amount*: 35%
Additional 2015 Request: 40%
Approvals to Date: 41.6%
Total 2015 Rate Increase Request: $((1.35)*(1.4))/(1.416) - 1 = 33\%$

*Note that the 2012 nationwide justifiable rate increase was 88% for policies with a lifetime benefit period and 35% for policies with a limited benefit period. After conversations with the Department, GLIC limited the rate increase requested to 20% for all benefit periods. However, when calculating the requested rate increase above, GLIC has used the original justifiable rate increase amount.

None of the rate increases sought in this filing would be implemented until previously approved increases have been fully implemented.

Please note:

- These requested amounts are significantly less than the amount GLIC can justify in total.
- Consistent with GLIC's 2014 Asset Adequacy Testing, we anticipate filing future rate increase requests of similar magnitude.
- GLIC will continue to monitor the experience of this block and will react according to the experience development.
- This filing, with self-limited lifetime loss ratios, does not imply the acceptance of the lifetime loss ratios contained in this filing as an acceptable measure of profitability or as a minimum threshold for future rate increase filings.

These existing policy forms provide benefits for institutional confinement and/or home care. They are collectively referred to as the Pre-PCS Series of policies and were issued in your state from September 1988 through January 1999. They are no longer being marketed in any state. Nationwide, the last policies for these forms were issued in 2003. The company is requesting the approval of a premium rate increase on the above listed forms and all associated riders due to adverse experience.

The assumptions applied to the attached projections are based on Genworth's actual nationwide in-force experience with adjustments as considered appropriate for future projections, based on expected differences in experience due to either policy characteristics or underwriting criteria. Best Estimate assumptions for voluntary terminations, mortality, and morbidity do not include any provision for contingency or risk margin. Updated claim severity assumptions led to the significant strengthening GLIC made to its claims reserve in the third quarter of 2014. Claimants are expected to stay on claim longer and use more of their available benefits than had been previously assumed. As a result of updated claims assumptions, lifetime loss ratios have increased. The exhibits attached were calculated with these updated assumptions.

GLIC will offer insureds affected by the premium increase several options to change their benefits in order to maintain a premium level reasonably similar to what they were paying prior to the rate increase. The benefit and rate combinations are consistent with the rate tables approved by the Department at the original filing.

Additionally, we will make an optional limited benefit available to those policyholders who wish to elect a limited paid-up Long Term Care insurance benefit. This option provides a paid-up policy with benefits equal to the total of premium paid, less any claims paid. While we strongly encourage policyholders to maintain coverage, we believe it is important to provide a comprehensive set of options.

The following electronic items are included in this submission:

- This cover letter;
- Public and Confidential Actuarial Memoranda;
- PA Actuarial Supplement (PDF and Excel versions);
- Current and Proposed Rate Tables;
- A Status of Filing Exhibit.

Any applicable fees will be submitted as an EFT payment via SERFF.

1. Purpose and Justification of Filing

On December 10, 2012 Genworth Life Insurance Company (“GLIC”) submitted a filing with justification for a rate increase of 20% for all benefit periods. On March 8, 2013, the Department approved the requested rate increases.

On September 23, 2014 GLIC requested a rate increase of 20% for policies with lifetime benefit periods and 18% for policies with limited benefit periods. On December 29, 2014, the Department approved the requested rate increases. The table below summarizes the requested rate increases and approvals for these forms:

Filing Date	SERFF Number	Request for Policies With		Approval Date	Approval for Policies With		Cumulative Approval From 2012	
		Lifetime Benefits	Limited Benefits		Lifetime Benefits	Limited Benefits	Lifetime Benefits	Limited Benefits
December 10, 2012	GEFA-128749315	20%	20%	March 8, 2013	20%	20%	20%	20%
September 23, 2014	GEFA-129719845	20%	18%	December 29, 2014	20%	18%	44%	42%

This rate increase filing is being made to: 1) continue to work to achieve the actuarial equivalent of rate increase originally requested in 2012; and 2) begin to implement the required increases that were included in GLIC’s 2014 asset adequacy testing. To achieve these goals, GLIC is requesting an 83% rate increase for policies with lifetime benefit periods and a 33% rate increase for policies with limited benefit periods. These amounts include 1) the balance of the 2012 rate increase request that was not approved and 2) an additional 40% rate increase which was included in GLIC’s 2014 asset adequacy testing. The updated assumptions used in GLIC’s 2014 asset adequacy testing also have been used in this filing.

None of the rate increases sought in this filing would be implemented until previously approved increases have been fully implemented.

**Actuarial Memorandum
December 2015**

Please note:

- These requested amounts are significantly less than the amount GLIC can justify in total.
- Consistent with GLIC's 2014 Asset Adequacy Testing, we anticipate filing future rate increase requests of similar magnitude.
- GLIC will continue to monitor the experience of this block and will react according to the experience development.
- This filing, with self-limited lifetime loss ratios, does not imply the acceptance of the lifetime loss ratios contained in this filing as an acceptable measure of profitability or as a minimum threshold for future rate increase filings.

In determining the need for additional rate increases beyond what was requested in 2012, GLIC considered termination rates, claims, and the cost of waiting.

Termination Rates: Significantly fewer policies and certificates have terminated from voluntary lapses and death than originally expected. GLIC has updated its termination assumptions and these new assumptions are aligned much better with actual historical experience than original termination assumptions. Increased future earned premium, driven by lower than expected termination assumptions, are inadequate to offset increased future incurred claims.

Claims: Policyholders are staying on claim longer and utilizing more of their available benefit than originally expected. In the third quarter of 2014, GLIC updated claim severity assumptions which led to the significant strengthening GLIC made to its claims reserves.

Cost of Waiting: Delays in implementing warranted premium rate increases will require higher percentage increases borne by fewer policyholders in the future to obtain the same Lifetime Loss Ratio.

Impact of Rate Increase Delay	
Years Delayed	Required Increase*
None	67%
1	81%
2	100%
3	125%
4	157%
5	198%

**Weighted average of Lifetime and Non-Lifetime rate increase*

The chart above demonstrates the weighted average impact of delaying the 83% lifetime and 33% limited rate increases in Pennsylvania.

This actuarial memorandum has been prepared to demonstrate that the requested increase satisfies the minimum requirements of your state and may not be suitable for other purposes.

2. Confidentiality

This submission redacts information that is confidential, proprietary and competitively sensitive in nature. A complete, confidential, un-redacted version of this Actuarial Memorandum has been filed separately. We request that the complete, confidential version not be made available for public access.

3. Description of Benefits

Base forms 6484, 50000, 50001, and 50003, and Rider forms 60394 and 60407 are collectively known as the "50000 series". Base forms 50020, 50021, 50022 and Rider forms 60491 and 60494 are collectively known as the "50020 series". Base form 7021 and Rider form 62100 are collectively known as part of the "PCP series". For policy forms under the PCP series, both a non-tax qualified and tax qualified version may have been offered.

All forms were individually underwritten policies and certificates that provide either comprehensive coverage or facility only coverage with the option to purchase a home health care rider. Some forms have a waiver of premium benefit. Some forms include an optional return of premium benefit that can be elected at issue. A non-forfeiture benefit rider may have been offered.

Each form has benefit eligibility requirements which involve ADL (Activities of Daily Living) deficiencies or cognitive impairment. A daily benefit, benefit period, and elimination period was selected at issue.

Some forms in the 50000 series include simple benefit increase or compound benefit increase options which were selected at issue. The simple benefit increase option will increase the benefit by a fixed amount (5% of the initial benefit) per year from the second year through the anniversary following the insured's 85th birthday. The compound benefit increase option will increase the prior year's daily maximum by 5% each year starting with the second policy year and continuing for the life of the policy.

Some forms in the 50020 and PCP series include simple benefit increase or compound benefit increase options which were selected at issue. The simple benefit increase option will increase the original daily maximum by 5% each year starting with the second policy year and continuing for the life of the policy. The compound benefit increase option will increase the prior year's daily maximum by 5% each year starting with the second policy year and continuing for the life of the policy.

The available choices for benefit period, elimination period, and benefit increase option, by form, can be found in the attached rate tables.

4. Marketing Method

Policies and certificates were primarily sold by captive agents that were provided leads from mass mailing responses.

5. Underwriting Description

The underwriting process included an assessment of functional and cognitive abilities at issue ages considered by GLIC to be appropriate. Various underwriting tools were used, in accordance with our

Genworth Life Insurance Company

**Address: 6620 West Broad Street, Richmond, VA 23230
Company NAIC No: 70025**

**Actuarial Memorandum
December 2015**

underwriting requirements, including an application, medical records, an attending physician's statement, telephone interview and/or face-to-face assessment.

6. Renewability and Applicability

These policies and certificates are Guaranteed Renewable for life, as provided for under the terms and conditions of the policies and certificates. This filing is applicable to all in-force policies and certificates and associated riders issued in Pennsylvania on the above-referenced forms.

7. Area Factors

Geographic area factors are not used in rating these policies and certificates.

8. Actuarial Assumptions

Redacted – see Section 2, above

9. Premiums

Premium rates are unisex, level (with the exception of rate increases) and payable for life. The premiums vary by issue age, daily benefit, benefit period, elimination period, benefit increase option, and any applicable riders selected.

10. Premium Modalization Rules

The following table shows the modal factors that are applied to the annual premium for policies and certificates, and the percentage of insureds selecting each premium mode on a nationwide basis.

Premium Mode	Modal Factor	Lifetime	Non-Lifetime
Annual	1.000	50.8%	47.7%
Semi-Annual	0.510	10.3%	12.2%
Quarterly	0.260	16.3%	20.8%
Monthly	0.090	22.6%	19.3%
Total		100.0%	100.0%

11. Active Life Reserves and Claim Liability Reserves

Active life reserves have not been used in this rate increase analysis. Claim reserves as of December 31, 2014 have been discounted to the date of incurral of each respective claim and included in historical incurred claims. Incurred but not reported reserve balances as of December 31, 2014 have been allocated to a calendar year of incurral and included in historic incurred claims. Discounting occurs at 4.0%.

12. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

Genworth Life Insurance Company

**Address: 6620 West Broad Street, Richmond, VA 23230
Company NAIC No: 70025**

**Actuarial Memorandum
December 2015**

13. Past and Future Earned Premium and Incurred Claims

Earned premiums and incurred claims projected through 2074 are developed from an asset share model representing actual contracts in-force through December 31, 2014. The assumptions described above for morbidity, voluntary lapse and mortality are used to project life years, earned premiums and incurred claims.

Exhibits I-A, I-B, I-C, II-A, II-B, and II-C are based on nationwide experience through December 31, 2014 for the forms affected by this rate increase to ensure maximum credibility.

Exhibit I-A and II-A are for all policies and certificates.

Exhibit I-B and II-B are only for policies and certificates with Lifetime Benefit Periods.

Exhibit I-C and II-C are only for policies and certificates with Limited Benefit Periods.

Definition of Pennsylvania Approved Rate Increases

Earned premium from rate increases prior to 2012, if any, were considered fully implemented. All such premium is included in entirety in Exhibits I and II.

The rate increases requested beginning in 2012 were not fully approved in all states. Additionally, the implementation of rate increases requested in 2014 was incomplete as of December 31, 2014. We believe projecting a mixture of rate increases nationwide, some approved, some disapproved, some partially implemented, and some fully implemented would not accurately demonstrate whether or not a rate increase is justified. For clarity, earned premium from rate increases requested nationwide beginning in 2012 were excluded from Exhibits I-A, I-B, I-C, II-A, II-B, and II-C.

However, Exhibits I-A, I-B, and I-C do include the 20% premium rate increase approved by the state of Pennsylvania in 2013 and the 20% premium rate increase for policies with lifetime benefit periods and 18% for policies with limited benefit periods approved by the state of Pennsylvania in 2014 with these rate increases applied to all policies and certificates nationwide. Moreover, the projections in Exhibit I are prior to the additional rate increase requested in this filing. By excluding all rate increases from other states and applying Pennsylvania rate increases to all policies nationwide, we have shown a projection with Pennsylvania Approved Rate Increases.

Exhibits II-A, II-B, and II-C include both the 2013 and the 2014 premium rate increases approved by the state of Pennsylvania applied to all policies nationwide, and the rate increase requested in this filing applied to all policies nationwide.

**Actuarial Memorandum
December 2015**

Lifetime Loss Ratio Calculation

Historical experience is shown by claim incurral year with the loss ratio for each loss year calculated by the following formula:

$$LR_j = \frac{\sum_{t=j}^{2014} Pmt_t^j v^{t-j} + {}_jCR_{2014} v^{2014-j+1/2} + {}_jIBNR_{2014} v^{2014-j+1/2}}{EP_j}$$

LR_j = loss ratio for year j

Pmt_t^j = claim payments in year t on claims incurred in year j, assumed to occur mid-year

${}_jCR_{2014}$ = open claim reserve held on December 31, 2014 for claims incurred in year j

${}_jIBNR_{2014}$ = incurred but not reported reserve as of December 31, 2014 attributable to claims incurred in year j

EP_j = earned premium in year j, assumed mid-year

j = year of incurral

$v = 1 / 1.040 = 0.961538$

A future annual loss ratio is calculated, with interest, as anticipated incurred claims divided by earned premiums. A lifetime loss ratio as of December 31, 2014 is calculated as the sum of accumulated past experience and discounted future experience where accumulation and discounting occur at 4.0%.

14. History of Previous Rate Revisions

A 9% rate increase was accepted in your state on December 21, 2007.

A 20% rate increase was accepted in your state on March 8, 2013.

A 20% rate increase for lifetime benefit periods and an 18% rate increase for limited benefit periods was accepted in your state on December 29, 2014.

15. Requested Rate Increase and Demonstration of Satisfaction of Loss Ratio Requirements

GLIC is requesting an 83% rate increase for policies and certificates with lifetime benefit periods and 33% rate increase for policies and certificates with limited benefit periods.

Although this request is significantly less than GLIC can justify, we are limiting our rate increase request at this time. Consistent with GLIC's 2014 Asset Adequacy Testing, we anticipate filing future rate increase requests of similar magnitude. GLIC will continue to monitor the experience of this block. This filing does not imply the acceptance of the lifetime loss ratios contained herein as an acceptable measure of profitability or as a minimum threshold for future rate increase filings.

There are no Limited Pay lives in-force on this policy form in your state.

Genworth Life Insurance Company

**Address: 6620 West Broad Street, Richmond, VA 23230
Company NAIC No: 70025**

**Actuarial Memorandum
December 2015**

Projected experience assuming the requested increase is not implemented is shown in Exhibits I-A, I-B, and I-C. Projected experience assuming the requested increase is implemented is shown in Exhibits II-A, II-B, and II-C. As shown in these exhibits, the expected lifetime loss ratios with and without the requested rate increases exceed the minimum loss ratio of 60%.

Rate tables reflecting the requested increase are included with this memorandum as Exhibit III, attached separately. Please note that actual rates implemented may vary from those in Exhibit III slightly due to implementation rounding algorithms.

16. Pennsylvania Average Annual Premium Based on Exposed Lives

	Lifetime	Non-Lifetime
Before Rate Increase*	\$1,333	\$1,285
After Rate Increase	\$2,440	\$1,708

*Note that some approved rate increases were only partially implemented as of December 31, 2014.

17. Proposed Effective Date

This rate increase will apply to policies and certificates on their anniversary date of issue or last coverage change, following a minimum 60-day policyholder notification period.

18. Nationwide Distribution of Business as of December 31, 2014 (Based on Exposed Lives)

Redacted – see Section 2, above

19. Pennsylvania and Nationwide Exposed Lives and Annualized Premium

As of December 31, 2014, the number of exposed lives in the state and nationwide is:

	Number of Exposed Lives		In-force Annualized Premium	
	Lifetime	Non-Lifetime	Lifetime	Non-Lifetime
Pennsylvania	2,117	1,901	\$2,822,260	\$2,441,994
Nationwide	39,979	27,728	\$51,086,051	\$33,651,165

*706 group policies fall under a different jurisdiction and are excluded from the Pennsylvania count and annualized premium

**Actuarial Memorandum
December 2015**

20. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for rendering this opinion and am familiar with the requirements for filing for increases in long-term care insurance premiums.

This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP No. 8.

I have relied on projection information provided by Long Term Care Group which was developed under the direction of, and using data, assumptions and methodologies provided by GLIC.

I have also relied on assumptions developed by GLIC's Long Term Care Experience Studies team. GLIC's Corporate Risk Committee approved those assumptions. The assumptions were developed with the assistance of a leading external actuarial consulting firm and subsequently peer reviewed by another leading external actuarial firm. Both external firms have strong Long Term Care experience. The peer review firm concluded that the assumptions in the aggregate are reasonable and supported by evidence.

I have reviewed and taken into consideration the policy design and coverage provided and GLIC's underwriting and claims adjudication processes.

I hereby certify that, to the best of my knowledge and judgment, this rate submission is in compliance with the applicable laws and regulations of your state when the original issued rates were first filed and accepted. In my opinion, the rates are not excessive or unfairly discriminatory.

Elizabeth A. Foreman, F.S.A., M.A.A.A.
Assistant Vice President & Actuary, Genworth Life Insurance Company

Genworth Life Insurance Company**

- 1. Note that Exhibit Ia in the filing shows the nationwide historical and projected calendar-year earned premium and incurred claims for the Pre-PCS block. It shows all benefit periods and restates the nationwide experience since 2012 assuming that all states received the 20% rate increase that was approved in 2013 in PA and the similar 20% for lifetime BPs and 18% for limited BPs increase that was approved in PA in 2014.**

Exhibit Ib is similar to Ia but shows only lifetime benefits periods. Exhibit Ic is similar to Ia but displays only limited benefits periods.

Please create alternate tables in an Excel that are similar to Exhibits Ia, Ib, and Ic but restate the nationwide historical and projected earned premium so that it all appears to be earned since inception in 1988 at the current Pennsylvania rate level.

Please see the tab *Attachment 1* included in the attached Excel worksheet *PA PrePCS Objection 1 Attachments 20160217.xlsx*. Attachments 1-a, 1-b, and 1-c include lifetime loss ratio projections with earned premium calculated at the current approved level in Pennsylvania.

- 2. The cover letter mentions that insureds will be offered options to mitigate the effects of the rate increase? In particular, will insureds be able to reduce their daily benefit, increase their elimination period, or decrease their benefit period in order to lessen the effect of the rate increase?**

Policyholder notifications include a section on coverage adjustment options. Options referenced include reducing the total amount of benefits available to pay for care, increasing the amount of time before benefits begin, reducing the length of time benefits last, and/or modifying any inflation protection policyholders may have. Additionally, our Customer Service team is prepared to help policyholders understand their options.

- 3. Please provide Exhibits Ia, Ib, Ic, IIa, IIb, and IIc in an Excel workbook.**

Please see the tab *Attachment 2* included in the attached Excel worksheet *PA PrePCS Objection 1 Attachments 20160217.xlsx*. Exhibits I-a, I-b, I-c, II-a, II-b, and II-c have been provided in the requested format.
