

Highmark Coverage Advantage Inc – Individual Plans

Rate request filing ID # HGHM-134061466 – This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at https://www.insurance.pa.gov/Consumers/HealthInsuranceFilings/Pages/ACA-Health-Rate-Filings.aspx

Overview

Initial request average rate change: 12.96% Revised requested average rate change: 12.96%

Range of requested: 5.77% to 14.04% Effective date: January 1, 2025

Mapped members: 26,051

Available in: Rating Areas 1 and 4

Key Information

Jan. 2023 - Dec. 2023 financial experience

Premiums	\$96,614,162
Claims	\$81,803,185
Administrative Expenses	\$17,070,055
Taxes & Fees	\$2,915,799
	ć F 474 070

Insurer made (after taxes) \$-5,174,878

How insurer plans to spend your premium

This is how the insurance company plans to spend

the premium it collects in 2025

Claims: 85%
Administrative: 12%
Taxes & Fees: 3%

Profit: 0%

The insurer expects its annual medical costs to increase 9.0%.

Explanation of Requested Rate Change:

The primary drivers of the rate increase are cost and utilization trend.

¹ Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.

An Independent Licensee of the Blue Cross and Blue Shield Association

May 15, 2024

Ms. Lindsi Swartz, MBA, MCM, Director Bureau of Life, Accident & Health Insurance Commonwealth of Pennsylvania Insurance Department 1311 Strawberry Square Harrisburg, PA 17120

Re: Highmark Coverage Advantage 2025 ACA Rate Filing (Individual Market) Filing # 1A-DP-24-HCA (SERFF # HGHM-134061466)

This constitutes Notice pursuant to Section 707 of the Pennsylvania Right-to-Know Law that the attached Highmark Coverage Advantage (HCA) 2025 Individual Market Rate Filing contains Trade Secret and Confidential Proprietary Information. Therefore, HCA must, prior to the release of any portion of this Filing, be notified of any request by a third party for access to this Filing, and the Trade Secret and/or Confidential Proprietary Information identified by HCA should be redacted before release.

Dear Ms. Swartz:

This Filing includes the Highmark Coverage Advantage ("HCA", "Company") Individual Market rates and the supporting rate development for policies with effective dates on or after January 1, 2025.

In the event the Department decides to publish this Filing in the PA Bulletin, the company information requested in the Department's 2025 ACA-Compliant Health Insurance Rate Filing Guidance, Section B, is provided below:

Requested Company Information

- 1. Company Name & NAIC #: Highmark Coverage Advantage, NAIC # 15507
- 2. Market: **Individual**
- 3. On or Off Exchange: The Company anticipates selling plans on and off the exchange.
- 4. Effective date of coverage: January 1, 2025

Ms. Lindsi Swartz, Director HCA 2025 Individual Market Rates May 15, 2024 Page 2 of 4

5. Average rate change requested: 13.0% increase

6. Range of rate change requested: 5.8% to 14.0%

7. Total additional annual revenue generated from the proposed rate change: \$21,121,261

8. Product(s): **EPO**

9. Rating Areas and the change from 2024: Rating Areas 1 and 4

There are no changes in the covered Rating Areas from the 2024 rate filing.

- 10. Metal Levels and Catastrophic Plans: The Company anticipates selling Platinum, Gold, Silver, Bronze, and Catastrophic plans in 2025.
- 11. Current number of covered lives as of February 1, 2024: **26,051 covered lives**
- 12. Number of plans offered in 2025 and the change this represents from 2024: 18

The Company offered 16 plans in 2024. For 2025, the Company is offering 2 new plans in the Market.

Please note that inclusion of premium rates in this filing for a given offering should not be construed to mean that the offering will ultimately be made available for sale in the Market. Final offering decisions will be made consistent with and within the timelines set forth in federal and state rules/regulations.

13. Corresponding contract form #, SERFF and Binder ID#s: The corresponding SERFF binder number is HGHM-PA25-125117893, affecting the following Company products and forms:

Product Name / Type	Contract Form & SERFF#
Together Blue [Virtual Choice] EPO	TB/EPO/HCA/DP-5; HGHM-134058725
Together Blue EPO Premier	TB/EPO/Premier/HCA/DP-3; HGHM-134058728
Together Blue EPO HDHP	TB/EPO/HDHP/HCA/DP-5; HGHM-134058731
Together Blue Major Events EPO	TB/CAT/EPO/HCA/DP-5; HGHM-134058736
Together Blue EPO Adult Dental and Vision	TB/EPO/ADV/HCA/DP-5; HGHM-134058737
Together Blue EPO Premier Adult Dental and	TB/EPO/Premier/ADV/HCA/DP-3;
Vision	HGHM-134058756

14. HIOS Issuer ID # and submission tracking number: **HIOS Issuer ID #79279, Company Filing #1A-DP-24-HCA (SERFF Filing # HGHM-134061466)**

Ms. Lindsi Swartz, Director HCA 2025 Individual Market Rates May 15, 2024 Page 3 of 4

Additional Filing Disclosures

The Company has submitted all of the federal and state Required Documents in its SERFF submission. In addition to the Required Documents, the Company has submitted a Supplemental Exhibits file containing additional detailed exhibits on items referenced in the PA Actuarial Memorandum. All tables, exhibits, and detail in support of this filing and the PA Actuarial Memorandum have been included in Excel format with the formulas retained to the extent possible.

Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, changes in legislation/regulations (including rules, regulatory guidance, etc.), material provider contracting changes, or changes in the participation of QHP issuers that would materially impact risk adjustment transfer amounts. As a result, the Company reserves the right to submit a revised filing.

Request for Confidentiality

Please note that the rates and the supporting rate development contained in this Filing are competitively sensitive, are not in the public domain, and constitute business confidential proprietary/trade secret information that would cause harm to the competitive position of HCA if disclosed to the public.

Public disclosure of any information contained in this Filing would allow HCA competitors to better understand or discover its confidential and proprietary rating, pricing and/or marketing practices, would undermine competition in the Individual market and could have negative consequences for the operation of HCA's business. Therefore, HCA asserts that this Filing, in its entirety, constitutes Trade Secret and Confidential Proprietary Information and should not be disclosed.

It is our understanding that the Department does not intend to publish the confidential & proprietary information contained in this Filing or to otherwise permit this Filing and its confidential information, other than the redacted information and final approved rates, to be disclosed or released.

Furthermore and pursuant to the Pennsylvania Right-to-Know Law ("RTKL"), HCA must be notified prior to release of information contained in this Filing and be given the opportunity to respond to requests for such information. Should the Department receive such request or require the release of information contained in this Filing for its own purposes, HCA asserts its right to release a redacted version of the Filing. In accordance with the RTKL, please contact the HCA RTKL representative identified below prior to release of any information contained in this Filing:

Ms. Lindsi Swartz, Director HCA 2025 Individual Market Rates May 15, 2024 Page 4 of 4

> RTKL Representative Director Privacy & Data Ethics Highmark Health 120 Fifth Avenue, Suite 2114 Pittsburgh, PA 15222

Furthermore, it should be noted that HCA is equally concerned that even if this information is released in aggregate form, it still may be easy to identify the carrier that submitted it.

Should you have any questions regarding the attached Filing, please feel free to contact me at or via e-mail at:

Sincerely,

Director, Actuarial Services Highmark Inc.

Actuarial Memorandum

1. Basic Information and Data

A. Company Information

The appropriate company information has been provided in Table 0. General information pertaining to this rate filing is summarized below:

Company Name: Highmark Coverage Advantage ("HCA", "Company")

• NAIC #: 15507

HIOS Issuer ID: 79279State: PennsylvaniaMarket: Individual

• Effective Date: 1/1/2025

SERFF Rate Filing #: HGHM-134061466

In accordance with the Department's March 28, 2024 rate filing guidance, the impact of the state 1332 Reinsurance program is captured using the prescribed parameters of \$60,000 attachment point, 50% coinsurance rate, and \$100,000 reinsurance cap. If the finalized parameters differ from those described in this filing, a revised submission would be required.

Finally, modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, changes in legislation/regulations (including rules, regulatory guidance, etc.), material provider contracting changes, or changes in the participation of QHP issuers that would materially impact risk adjustment transfer amounts. As a result, HCA reserves the right to submit a revised filing.

B. Rate History and Proposed Variations in Rate Changes

The three most recent rate changes in Pennsylvania for HCA are as follows:

Year	Avg. Increase	SERFF ID#
2024	8.0%	HGHM-133630381
2023	4.3%	HGHM-133249767
2022	-3.6%	HGHM-132820368

Historical rate changes varied by plan due to updated cost sharing levels to meet federal AV requirements as well as updates to AV and other pricing factors.

The proposed 2025 rate changes vary by plan. This is primarily due to updates in the pricing AV factors and benefit richness factors. The plan level rate changes can be found in Table 10.

As requested by the Department, a historical MLR Exhibit is included as Attachment G. MLR results reflect any amounts attributed to the applicable benefit year. As an example, Risk Adjustment paid in mid-2021 for the 2020 benefit year is attributed to the 2020 benefit year.

C. Average Rate Change

The average rate changes as presented in the filing are:

Table 10: 13.0%Table 11: 13.0%

Table 10 calculates the percentage change in the member weighted average rate for 2024 and the member weighted average rate for 2025. Table 11 calculates the percentage increase for each geographic rating area and then member weights the percentage increases.

Worksheet 2 of the URRT also shows a submission level rate change. This value is used in the development of the average rate change shown in the Federal Part II justification (when applicable). A demonstration of this calculation is included in Attachment F.

D. Membership Count

Please see Table 1 for the average age, age breakdown, and total membership for the periods shown.

E. Benefit/Cost Sharing Changes

The majority of Highmark Coverage Advantage's renewing 2025 plans contain cost sharing that differs from the 2024 offering.

The screenshots from the HHS AV calculator, showing the plan benefits and the resulting actuarial values, can be found as a separate attachment within the *Supporting Documentation* section in SERFF. Also, the PA Plan Design Summary and Rate Tables along with the HIOS Plan IDs can be found within the *Rate/Rule Schedule* section in SERFF.

F. Experience Period Claims and Premium

Please see Table 2 for the experience period data for the most recent calendar year. The experience period paid claims data represents the 2023 calendar year results for all policies in the single risk pool, with run out through February 2024. This data is consistent with the data reported in Section I of Worksheet I of the URRT.

Table 2 is populated with the experience period data as follows:

- The Earned Premium represents actual revenues earned in the experience period.
- Incurred Claims represent claims paid by HCA. Note that the URRT includes capitated services and is net of Rx Rebates. Those values are not included here as they are listed as separate items.
- The Allowed Claims represent our best estimate of the total claims prior to member cost sharing incurred during the experience period. The Allowed Claims include:
 - o Two months of run out from the end of the experience period,

- Claims processed outside of the Company's claims system (e.g., claim settlement costs),
 and
- o Our best estimate of claims incurred but not paid as of the end of the run out period.

Note that allowed claims in the URRT include capitation and are net of drug rebates. They are not included here as they are called out separately in the exhibit.

- Allowed Charges for non EHB services are included in column G. The amount of non EHB included is shown in column H.
- Prescription Drug Rebates are used to reduce the level of Incurred Claims in the experience period.
- Total EHB capitation includes \$0.15 PMPM for the pediatric vision benefit.
- Estimated Risk Adjustment includes the transfer dollars and an estimate for the High Cost Risk Pool for the experience period.

G. Credibility of Data

The experience period data for HCA is large enough to be fully credible. The results are based 100% on the experience period data.

H. Trend Identification

Table 3 identifies the annual medical and prescription drug allowed claims cost and utilization trends. The underlying total annual trend is 9.00%. The definitions of service categories, cost, and utilization in Table 3 are consistent with the URRT instructions. The numbers entered in the Cost and Utilization columns are consistent with those entered in Worksheet I, Section 2 of the URRT, except as noted below.

The cost trends presented in Table 3 reflect the Company's expectations regarding increases in in-network contractual reimbursement, as well as projected out-of-network costs. The significant changes observed in the volume, demographics and morbidity of the ACA population from 2020 to 2023 yield component trends that are generally not directly applicable for trend analysis. The trend components in Table 3 therefore represent the same blended average for all types of service and are applied to the aggregate experience for pricing.

A multi-year regression analysis was developed by the Company's valuation team to analyze the ACA individual population trend levels. The analysis was completed at the medical and pharmacy level, then combined to develop a total trend assumption. The regression tool removes components of trend that are more explainable from the observed trend rates and then uses regression analysis to isolate the underlying trend rate. Some of the more explainable variables include high dollar claims, workdays, provider contracting, demographics, and seasonality. The total trend is the sum of the explainable components and the estimated underlying trend rate. The valuation regression tool primarily informed the trend selection with the final requested trend also based on actuarial judgment.

I. Historical Experience

Table 4 presents the most recent 48 months (4 calendar years) of HCA data with run-out through February 2024. This data was not used to develop the trend in Table 3. Please see Section H for further details.

2. Rate Development & Change

A. Development of Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims

The development of the Projected Index Rate, Projected Market-Adjusted Index Rate, and Projected Total Allowed Claims, shown in Table 5, closely follows the methodologies discussed in the Part III Actuarial Memorandum submitted in the Rate Filing Justification. Please refer to the Part III Memorandum for further details.

Some of the items separately identified in Table 5 include:

- In accordance with the Department's guidance, the morbidity change related to the Reinsurance program is set to 1.000.
- The Change in Morbidity adjustment of 0.969 reflects the change in the population mix/claim levels from the experience period to the projection period. We continue to observe a high degree of membership churn from year-to-year, which impacts the morbidity. This factor also takes into consideration the effects of adverse selection inherent to guaranteed issue markets. The Individual ACA risk pool continues to have a significantly higher proportion of older members with a high prevalence of chronic conditions compared to group business, which adds to the uncertainty of any future claim projections.
- There are no longer any COVID adjustments from the experience period to the rating period.
- The Change in Demographics adjustment of 0.999 reflects the change in age and geography factors we expect from the experience period to the projection period.
- There is a Change in Network adjustment of 1.065.
- There is no Change in Benefits adjustment.
- The Change in Other adjustment of 0.974 reflects changes in pharmacy rebates, expected changes in hospital/physician settlements, and changes in induced demand.

Please see Attachments A and E for a more detailed calculation of these factors. These factors can also be found in the accompanying spreadsheet.

The projected paid-to-allowed ratio is 0.831. The formula found in Table 5 cell C28 was overwritten because, unlike the average factor found in Table 10 cell K16, the Company's paid-to-allowed factor is dampened by items such as capitation.

The quantitative development of the projected risk adjustment transfer amount for the Company is shown in Attachment B and included in the accompanying spreadsheet. The transfer amount is developed based on an analysis of the claims data underlying the rate development for this filing (risk scores as defined in the HHS Notice of Benefit and Payment Parameters, as well as other risk transfer formula components) and an estimate as to the market-wide risk profile. This market-wide risk profile is developed from available market data, including prior years' risk adjustment transfer results, publicly available data, and outside expertise from actuarial consultants. Applying the federally prescribed transfer formula at the level of granularity available in Attachment B yields a projected gross risk adjustment transfer of (\$63.78)

PMPM on a *billable* member month basis. This amount is then converted to a *total* member month basis of (\$63.69) PMPM in order to be used in the rate development. The expected risk adjustment payable reflects that the Company anticipates its average risk score (net of allowable rating factors) to be lower than the statewide average.

The development of the (\$65.63) PMPM value in cell C31 of Table 5 is found in Table 16. Table 16 begins with the development of the risk adjustment transfer for the non-catastrophic pool. This produces the (\$63.45) PMPM in Table 16 cell C15, which aligns to Attachment B. Next, Table 16 cell C17 includes a manual adjustment of \$0.53 PMPM to account for the inclusion of the catastrophic pool, conversion from billable to total membership, and an adjustment for the composite effect of catastrophic eligibility and benefits in addition to EHB. Finally, Table 16 cell C19 incorporates the projected net impact for the High Cost Risk Pool program of (\$2.71) PMPM. Please note that the risk adjustment user fee is captured in the taxes and fees portion of administrative costs.

The exchange user fee in cell C32 of Table 5 is developed by taking the required user fee percentage of 3.0% and multiplying by the percentage of total members expected to be on exchange of 89%. This results in a percentage of 2.7%. The PMPM of \$14.31 is calculated as 2.7% of the total required premium adjusted further for the composite effect of catastrophic eligibility and benefits in addition to EHB.

The projected incurred reinsurance recoveries of \$18.42 PMPM is found in cell C33 of Table 5. The reinsurance recoveries PMPM was developed by trending Highmark PA individual ACA CY2023 incurred claims by member to the CY2025 rating period, applying the parameters defined in Tab II.b, and calculating the amount of incurred claims expected to be reimbursed by the program. Highmark PA individual ACA business was considered due to its level of credibility. The modeling produced an estimated incurred claims savings of 4.5%. This percentage was converted to a PMPM and adjusted further for the composite effect of catastrophic eligibility and benefits in addition to EHB.

The Company intends to offer several plans that include benefits in addition to EHB. Six plans have an adult dental and vision benefit, two plans have an adult vision exam benefit, and six plans have a hearing benefit. The Company relied on cost estimates from other departments for the following non-EHB benefits:

- Adult dental benefit United Concordia Dental (UCD) estimated this benefit to be worth \$23.88 PMPM on a paid basis.
- Adult vision benefit Davis Vision estimated this benefit to be worth \$2.40 PMPM on a paid basis.
- Adult vision exam benefit Davis Vision estimated this benefit to be worth \$0.97 PMPM on a paid basis.
- **Hearing benefit** TruHearing estimated this benefit to be worth \$0.03 PMPM on a paid basis.

B. Retention Items

Table 6 has been completed with the requested retention elements for the proposed rates for the rating period. The amounts presented separately sum to the total administrative expenses and taxes and fees presented in the rate development.

Administrative costs reflect internal costs that the Company is projected to incur in the rating period and are developed from standard expense allocation methods. Administrative expenses do not vary by plan.

The proposed rate development assumes an average broker commission of \$8.58 PMPM for 2025. The assumed broker commission schedule and the development of the average value are included in Attachment D.

Expenses for Quality Improvement initiatives are assumed to be 2.84%.

The following is a summary of the Taxes and Fees included in the rate development:

- Pennsylvania Premium Tax is not applicable to this issuer and thus is set to 0.0%.
- Federal Income Tax is set to 0.0%.
- Health Insurance Provider Fee is set to 0.0%.
- Risk Adjustment User Fee is set to \$0.18 PMPM consistent with Federal regulations.
- Patient-Centered Outcomes Research Institute (PCORI) fee is set to \$0.31 PMPM.

The Profit/Contingency for all plans is set to 0%. HCA has voluntarily refrained from adding a risk and contingency factor in this filing. By this voluntary action, HCA is not waving any right to include a risk and contingency factor which HCA believes is consistent with historical and legal interpretations of HCA and the Pennsylvania Insurance Department.

C. Normalized Market-Adjusted Projected Allowed Total Claims

The normalization factors presented in Table 7 are each determined from the underlying membership demographics expected in the projected rating period. The 2024 values are pulled from the prior year's filing, while the 2025 values represent our projection for 2025 assumed in the 2025 rate development.

D. Components of Rate Change

Table 8 presents the components of change in the proposed 2025 Calibrated Plan Adjusted Index Rate (PMPM). Cell C73 is populated with the base period allowed charges found in the 2024 plan year rate filing (\$387.88).

Table 9 presents the data elements supporting the calculations in Table 8. The 2024 values are populated using the 2024 filed factors adjusted for the membership mix as of February 1, 2024.

3. Plan Rate Development

Table 10 shows the plan rate development for 2025. This table shows the plans that the Company intends to offer in 2025, as well as all plans offered in the 2024 portfolio. The calibrated plan adjusted index rates

for 2024 are calculated according to the instructions. The 2025 rating factors are consistent with the factors found on Worksheet 2 of the URRT. The pricing effect on Table 10 is further broken out into Pricing AV, Benefit Richness, and Non-Funding of CSR Adjustment. Similar to the URRT, the admin effect on Table 10 is broken out into Admin Costs, Taxes and Fees, and Profit or Contingency.

The benefit richness factors in column L are populated with the factors found in Attachment C and the corresponding supporting spreadsheet included with this rate filing. The derivation of the AV and Cost Sharing factors can also be found in Attachment C. The values in column 8 of the attachment represent the pure induced utilization for each plan. The Company's induced utilization factors are based on the following state-defined formula: (Plan AV)^2 – (Plan AV) + 1.24. The "Plan AV" is the product of the "Pricing AV" and "Non-Funding of CSR Adjustment." Each plan's factor was then normalized by the average utilization factor. The average is a weighted average using projected membership as the weight. After normalization the average factor as shown in Attachment C is 1.000.

Note that the HHS Actuarial Value Calculator was unable to accommodate all of the Company's benefit designs. Plans needing certification are marked in column I of Table 10. Screen shots of all of the AV calculations and the appropriate certifications are included as a separate attachment within the *Supporting Documentation* section in SERFF.

For discontinuing plans where members are being mapped into a new plan, an effective rate increase is calculated by comparing the 2024 rate of the discontinuing plan to the 2025 rate of the plan to which the member is being mapped. This is not applicable for this filing since there are no discontinuing plans.

Columns AG through AP are populated with the February 1, 2024 enrollment by 2025 plan and rating area.

Impact of Non-Payment of Cost Sharing Reduction Subsidies

In accordance with the Department's guidance, we have applied an additional adjustment to our AV pricing values for those Silver plans not offered exclusively off-exchange. This adjustment factor was 1.25 and represents the non-payment of Cost Sharing Reduction subsidies. Consistent with the Department's guidance, this adjustment was reflected in Table 10 in Column P.

4. Plan Premium Development for 21-Year-Old Non-Tobacco User

Table 11 presents the Company's 21-year-old non-tobacco premium in the Individual Market. As mentioned in Section 1.C above, the change in 21-year-old non-tobacco premium PMPM calculated in this table is 13.0%.

5. Plan Factors

A. Age and Tobacco Factors

Please see Table 12 for the Company's age and tobacco factors.

B. Geographic Factors

Please see Table 13 for the Company's geographic factors. The Company's factors for the rating period are unchanged from the currently approved factors.

C. Network Factors

Please see Table 14 for a summary of the Company's network rating factors. The factors presented here represent the medical network factors from the prior approved rate filing (if applicable) and the projected medical network factors for the rating period.

Quantitative support for this change can be found on Attachment H.

D. Service Area Composition

The Plan Design Summary exhibit uploaded as a separate document contains the service areas related to this filing. As requested, service area maps are included.

6. Actuarial Certifications

I, am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. All statements in this actuarial certification are accurate to the best of my knowledge and understanding. This filing is prepared in compliance with applicable Actuarial Standards of Practice. In completing this filing, I relied on data/information from other sources which was reviewed for reasonableness. This filing is prepared on behalf of HCA to accompany its rate filing (for calendar year 2025) for the Individual Market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102),
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d) (1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that all factor, benefit and other changes from the prior approved filing have been disclosed in the actuarial memorandum.

I certify that new plans are not considered modifications of existing plans (per the uniform modification standards in 45 CFR 147.106).

I certify that the AV Metal Values included in Table 10 were based entirely on the Federal AV Calculator or one of the approved alternative approaches.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

I certify that the information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2025 Rate Filing Justification.

Attachment H - Network Factor Support

Standard Questions

1. Membership:

a. If the projected membership for plan year 2025 significantly differs from the current 2/1/2024 membership, please explain why.

Response:

a. The projected membership for 2025 is not significantly different from the current membership in 2024.

2. Experience Period Claims:

- a. Please confirm that all claims which are capitated have been removed from the experience period claims.
- b. Please confirm that all non-EHB claims have been removed from the experience period claims
- c. How are drug rebates projected to change from the base period to the rating period? How has this change been reflected in the rate development?

Response:

- a. All capitation dollars are excluded from the experience period paid claims in Table 2. Capitation dollars are captured in the appropriate EHB Capitation and Non-EHB Capitation cells in Table 2.
- b. All non-EHB claims have been removed from the experience period claims that are used to develop the Index Rate.

3. COVID:

- a. Please confirm that Tables 2-4 of the PAAM Exhibits do not have any COVID adjustment. Additionally, please confirm that any COVID adjustment factor in the filing is reflected in Table 5 of the PAAM Exhibits.
- b. If there is a COVID adjustment factor other than 1.0, please provide a quantitative exhibit supporting the factor.
- c. Please provide commentary on how the Company believes services such as COVID vaccinations and COVID testing will be handled in PY25. Within your response, please clarify if these services will be considered preventative and covered at 100%.

Response

- a. Tables 2-4 of the PAAM Exhibits do not have any COVID adjustments. Furthermore, there are no longer any COVID adjustments from the experience period to the rating period.
- b. The COVID adjustment factor used for this filing is 1.0. There are no longer any COVID adjustments from the experience period to the rating period.
- c. There will be no change in how COVID vaccinations and testing will be handled in PY25. The COVID vaccine is on the CDC's general immunization schedule and is considered to be

preventative with no cost share for members. COVID tests will be covered according to a member's cost share for diagnostic testing.

4. Trend:

- a. [SG. Only] If the Total Annual Trend in Table 3 (weighted by credibility) and the Annual Trend used to calculate quarterly rates in Table 5A differ, please provide an explanation and exhibit in support of the variation.
- b. [SG. Only] In Table 5A, if cells K32:M32 are left to equal J32, please explain why that is a reasonable assumption.

Response:

- a. This question is not applicable to this filing.
- b. This question is not applicable to this filing.

5. Table 6 – Retention:

- a. Please confirm that the federal income tax is calculated using a Federal Income Tax Rate of 21%. If other adjustments were made in Table 6, cell C57, please provide a demonstration of how this number was calculated and an explanation of the other adjustments included in the calculation.
- b. Please confirm that the Risk Adjustment User Fee PMPM is consistent with HHS Final Notice of Benefit and Payment Parameters for plan year 2025.
- c. Please provide an exhibit showing the commission PMPM amount to be paid to brokers in the following situations: Open-Enrollment Enrollee Renewing, Open Enrollment Enrollee New, Special Enrollment Period Enrollee New, Special Enrollment Enrollee Renewing. If the commission PMPM is not consistent between the four options above, please provide a detailed explanation as to the reason for the difference.

Response:

- a. The value in Table 6, cell C57 is 0.00%.
- b. As stated in Section 2.B of the PA Actuarial Memorandum, the rate development assumes a risk adjustment user fee of \$0.18 PMPM for plan year 2025, which is consistent with the Final Notice of Benefit and Payment Parameters.

6. Pricing AVs:

- a. Please confirm that the Pricing AVs were calculated using a single risk pool (i.e., claims experience is not separated by metal level).
- b. Please identify and support any differences between the company's metallic AV calculator results and the corresponding Pricing AVs.

Response:

- a. The Company's Pricing AV tool does not separate claims experience by metal level and the underlying claims experience is applied to the applicable cost sharing levels.
- b. The differences in comparing the CMS metallic AV calculator to the Company's corresponding Pricing AVs average approximately 3%. These differences occur due to a number of factors

such as the CMS metallic AV calculator is based on a completely different underlying population, assumptions regarding trends in deductible and copay tables, assumptions regarding mix of services, etc.

7. Expanded Bronze Plans:

a. Please provide an exhibit which demonstrates that the criteria for expanded bronze plans have been met.

Response:

a. Our expanded bronze plans satisfy the requirements as defined by 45 CFR 156.140(c) by either covering at least one major service, other than preventive services, before the deductible or meeting the requirements to be a high deductible health plan within the meaning of 26 U.S.C. 223(c)(2). For plans satisfying the requirement by covering at least one major service before the deductible, several major services are covered prior to the deductible including primary care and specialty care. The coinsurance percentages and certifications of the values corresponding to these categories can be found in the AV screenshots and Certifications document provided as a separate attachment with the initial SERFF submission.

8. PAAM Exhibits – Consumer Factors:

- a. Please provide quantitative and qualitative support for the proposed geographic rating area factors, if different from the previous year.
- b. Please provide quantitative and qualitative support for the proposed network factors, if different from the previous year.

Response:

- a. The proposed geographic rating area factors are unchanged from the currently approved factors.
- b. Attachment H of the PA Actuarial Memorandum provides quantitative support for the proposed network factor that is being adjusted from the currently approved factors. A discussion of this adjustment is included in Section 5.C of the PA Actuarial Memorandum.

9. MLR Exhibit:

- a. Please complete table below which summarizes the most recent three years of complete MLR information.
 - i. Actual is the final information which was filed for the specified calendar year
 - ii. Projected is the information which was projected in the final annual filing for the given year (i.e., 2021 projected information is from the plan year 2021 annual filing submitted in 2020)

	M	LR	Member Months		
Calendar Year	Actual	Projected	Actual	Projected	
2020					
2021					
2022					

- b. Are the MLRs and Member Months between Actual and Pricing comparable? If not, explain.
- c. Does the insurer expect to pay MLR rebates for the 3-year period above?

Response:

- a. Attachment G of the PA Actuarial Memorandum contains the historical MLR Exhibit as requested.
- b. The differences between Actual and Projected MLRs vary by year. The 2020 variance was driven primarily by the COVID-19 pandemic. In 2021 and 2022, there was no material MLR variance.

The Member Month differences also vary by year. The 2020 variance was driven by lower-than-expected switching rates from competition after the new HCA product launch (Together Blue EPO). This was partially offset by increased market size resulting from the COVID PHE (due to employment losses and an internal decision to not terminate existing members for non-payment). In 2021, there was no material enrollment variance. The 2022 variance was driven by ARPA subsidies, which expanded the market more than expected.

c. No MLR rebates were payable for the 2022 MLR rebate reporting year (2020-2022 period).

10. Plan of Withdrawal:

a. Please confirm that a Plan of Withdrawal has been submitted if any plans are being discontinued.

Response:

a. Based on the guidance from the PA Insurance Department regarding Plan of Withdrawal requirements, it is the Company's understanding that a Plan of Withdrawal is not applicable for the 2025 plans submitted. In the event that a plan is discontinued, all members are being renewed into other plans.

11. Transitional Plans:

a. Starting in October 2024, the PID will discontinue the non-enforcement policy for individual transitional plans (the non-enforcement policy for small group transitional plans will continue until further notice, or until the federal government discontinues its non-enforcement policy). If applicable, please discuss the migration of individual transitional members into ACA-compliant plans effective January 1, 2025.

Response:

a. The Company does not offer individual transitional plans. The Company believes there is very little enrollment left in individual transition plans across the market and thus the migration of these members into ACA-compliant plans would have a minimal impact on the overall pool.

12. Copay Adjustment Programs:

- a. Does the company use a copay adjustment program (also known as a copay accumulator program)?
- b. How does the company handle copay assistance coupons? For example, does the coupon apply to the MOOP?
- c. If any change to such a program has resulted in a pricing impact, please include a detailed quantitative exhibit supporting the pricing impact.

Response:

a. Yes, the Company uses a copay adjustment program called on certain plans.

- b. The value of the manufacturer copay assistance coupons processed through the program bypasses the members' deductible and annual out-of-pocket maximum.
- c. There is no material pricing impact to the program.

Rating Areas 1 and 4

Key Information

Jan. 2023 - Dec. 2023 Financial Experience

Premium	\$ 96,614,161.59
Claims	\$ 81,803,185.49
Administrative Expenses	\$ 17,070,054.58
Taxes & Fees	\$ 2,915,799.42
Company Made After Taxes	\$ (5,174,877.90)

The company expects its annual medical costs to increase:

9.00%

Explanation of requested rate change: The primary drivers of the rate increase are cost and utilization trend.

Carrier Name: HMCAI
Product(s): EPO
Market Segment: Individual
Rate Effective Date: 01/01/2025

How It Plans to Spend Your Premium

This is how the company plans to spend the premium it collects in 2025:

Claims:	85%
Administrative Expenses:	12%
Taxes & Fees:	3%
Profit:	0%

I. General Information

Document Overview

This document contains the Part III Actuarial Memorandum for Highmark Coverage Advantage's (HCA) individual block of business rate filing, for products with an effective date of January 1, 2025. This actuarial memorandum is submitted in conjunction with the Part I Unified Rate Review Template.

The purpose of the actuarial memorandum is to provide certain information related to the submission, including support for the values entered into the Part I Unified Rate Review Template, which supports compliance with the market rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

This information is intended for use by the Pennsylvania Insurance Department ("Department"), the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of HCA's rate filing. However, we recognize that this certification may become a public document. HCA makes no representations or warranties regarding the contents of this letter to third parties. Likewise, third parties are instructed that they are to place no reliance upon this actuarial memorandum that would result in the creation of any duty or liability under any theory of law by HCA.

The results are actuarial projections. Actual experience is likely to differ for a number of reasons, including population changes, claims experience, and random deviations from assumptions.

I.1 Company Identifying Information:

- Company Legal Name: Highmark Coverage Advantage
- State: The Commonwealth of Pennsylvania has regulatory authority over these policies.
- HIOS Issuer ID: 79279
- Market: Individual
- Effective Date: January 1, 2025

I.2 Company Contact Information:

•	Primary Contact Name:
•	Primary Contact Telephone Number:
•	Primary Contact Email Address:

II. Proposed Rate Changes

For all rate changes by plan, see the 'Cumulative Rate Change % (over 12 mos prior)' found in Worksheet 2, line 1.11 of the URRT. The rate change varies by plan due to an update in several of our pricing factors and changes in cost sharing required to meet Actuarial Value and other cost sharing restrictions under the Affordable Care Act as well as mappings between discontinued and new plans.

The primary drivers of the rate increase are cost and utilization trend.

In accordance with the Department's March 28, 2024 rate filing guidance, the impact of the state 1332 Reinsurance program is captured using the prescribed parameters of \$60,000 attachment point, 50% coinsurance rate, and \$100,000 reinsurance cap. If the finalized parameters differ from those described in this filing, a revised submission would be required.

Finally, modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, changes in legislation/regulations (including rules, regulatory guidance, etc.), material provider contracting changes, or changes in the participation of QHP issuers that would materially impact risk adjustment transfer amounts. As a result, HCA reserves the right to submit a revised filing.

III. Experience and Current Period Premium, Claims, and Enrollment

III.1 Paid through Date:

Experience Period claims were based on incurred calendar year 2023, paid through February 2024. This includes 2023 experience in Affordable Care Act compliant plans. HCA did not offer any transitional plans in 2023.

III.2 Current Date:

The current date shown represents a snapshot of February 1, 2024.

III.3 Allowed and Paid Claims Incurred During the Experience Period:

- Historical Experience: We chose HCA's current experience for the individual block
 of business for the period January 1, 2023 through December 31, 2023, with claims
 paid through February 2024 as the basis for the 2025 projected individual market
 pricing.
- Claims Incurred During the 12-month Experience Period: Worksheet 1, Section I shows our best estimate of the amount of claims that were incurred during the 12-month experience period for HCA's individual book-of-business. This section includes:
 - The amount of claims which were processed through Company's claims system,

- Claims processed outside of the Company's claims system, and
- Our best estimate of claims incurred but not paid as of the paid through date stated above.
- Method for Determining Allowed Claims: For non-capitated claims, the allowed charges are summarized from The Company's detailed claim-level historical data. This experience includes 2023 claims for Affordable Care Act compliant business. For capitated and other off-system claims, historical capitations and experience were tabulated and added to the claims.
- Paid Claims: We also summarized the paid claims from detailed member records.
 The paid-to-allowed ratio for the experience period reflects the 2023 plan designs chosen by each member.
- Incurred but Not Paid (IBNR) Claims Estimate: The Company is using a completion factor of 0.9691 to include IBNR claims in allowed charges. The IBNR completion factor was developed using our corporate reserving system for The Company's individual business. We applied it equally to both paid and allowed total claims (as a change to utilization) to complete the experience.

IV. Benefit Categories

The index rate of the experience period was summarized at the defined benefit categories included in Worksheet 1. Section II of the URRT.

The data provided in this section closely adheres to the preferred definitions of the Benefit Categories included in the URRT instructions, including the "Other Medical" category. The "Other Medical" category units reflect visits for PDN/home health, trips for ambulance and procedures for DME/prosthetics. Prescription drug utilization was converted to a "per 30-day" script count.

V. Projection Factors

V.1 Trend Factors

This development of the CY2025 rates reflects an annual trend rate of 9.0% (5.0% cost, 3.8% utilization). These trends reflect HCA's expectations regarding increases in in-network contractual reimbursement and out-of-network costs. These estimates measure and normalize for some of the more explainable variables such as high dollar claims, work days, provider contracting, demographics, and seasonality.

The trend represents a blended average for all types of service and is applied to the aggregate experience for pricing. These trends represent assumed community-wide expectations. Claim variations due to the specific projected enrolled population in this single risk pool are reflected in the morbidity adjustment.

V.2 Changes in the Morbidity of the Population Insured

The Morbidity Adjustment of 0.969 reflects the change in the population mix/claim levels from the experience period to the projection period. We continue to observe a high degree of membership churn from year-to-year, which impacts the morbidity. This factor also takes into consideration the effects of adverse selection inherent to guaranteed issue markets. The Individual ACA risk pool continues to have a significantly higher proportion of older members with a high prevalence of chronic conditions compared to group business, which adds to the uncertainty of any future claim projections.

In accordance with the Department's guidance, the morbidity change related to the Reinsurance program is set to 1.000.

There are no longer any COVID adjustments from the experience period to the rating period.

V.3 Changes in Demographics

We project that the average rating factor (age, tobacco load and area combined) will decrease by about 0.1% due to the change in the population. This is primarily due to the expectation that the new members from the group and/or uninsured populations to be slightly younger than the population in the underlying experience. This decreases the projected allowed claims (utilization) by the same amount.

V.4 Changes in Benefits

There is no change in benefits related to the essential health benefit (EHB) categories so the factor is set to 1.0. The cost sharing changes for the EHBs are captured in the paid to allowed ratio factors discussed in the AV and Cost Sharing Design of Plan section X.1.

V.5 Changes in Other

The 1.037 factor represents the combined impact of changes in network, induced demand, pharmacy rebates, hospital/physician settlements, and state mandates/laws (when applicable).

VI. Manual Rate Adjustments

HCA's individual experience is fully credible. No manual rate is developed or used in this projection.

VII. Credibility of Experience

The experience is from HCA's individual book of business in 2023. It is large enough to be fully credible. Our results are based 100% on the experience rate, as adjusted.

VIII. Index Rate

The index rates as shown on Worksheet 1 of the URRT are simply the single risk pool average allowed claims for the Essential Health Benefits for the experience and projected populations,

respectively, for HCA. For the experience period, only non-grandfathered plans are included. The projection period Index Rate is not adjusted for reinsurance or risk adjustment programs or any other fee.

IX. Market Adjusted Index Rate [MAIR]

The Market Adjusted Index Rate is the Projected Index Rate further adjusted for reinsurance, risk adjustment, and the exchange user fee.

IX.1 Projected Reinsurance PMPM

In accordance with the Department's March 28, 2024 rate filing guidance, the impact of the state 1332 Reinsurance Program is captured using the following parameters for 2025: an attachment point of \$60,000, a coinsurance rate of 50%, and a cap of \$100,000. HCA estimated the impact of the reinsurance program under these tentative parameters by trending Highmark PA individual ACA CY2023 incurred claims by member to the CY2025 rating period, applying the parameters, and calculating the amount of incurred claims expected to be reimbursed by the program. The modeling produced an estimated incurred claims savings of 4.5%. This percentage was converted to a PMPM and adjusted to an equivalent allowed claim basis by dividing the PMPM by the paid-to-allowed factor and the composite effect of catastrophic eligibility and benefits in addition to EHB. This amount is reflected in worksheet 1 of the URRT.

IX.2 Projected Risk Adjustment PMPM

The estimated average risk score for HCA's projected 2025 population was developed by using HCA's 2023 claim diagnoses and the risk adjustment coefficients as finalized in the Notice of Benefit and Payment Parameters. Similarly, actuarial value factors and induced demand factors were estimated for HCA based upon its projected 2025 population.

We estimated the statewide average risk transfer factors based on current market assumptions. We estimated the statewide average premium using current market premium assumptions with adjustments for anticipated rate changes for 2025.

The actual calculation of the risk transfer followed the risk transfer methodology as prescribed.

The analysis resulted in HCA paying to the risk adjustment pool. The (\$78.94) PMPM value shown in worksheet 1 of the URRT is developed by taking the expected risk transfer amount plus the projected High Cost Risk Pool charge and adjusting it to an equivalent allowed claims basis by dividing it by the paid-to-allowed factor and the composite effect of catastrophic eligibility and benefits in addition to EHB.

For the purposes of this rate filing, HCA has assumed no adjustment to the projected risk adjustment transfer for the Risk Adjustment Data Validation (RADV) program.

IX.3 Exchange User Fee %

The 3.04% value shown in worksheet 1 of the URRT is developed by multiplying the 3% exchange user fee by the assumed percentage of on exchange membership. This calculated amount is then divided by the paid-to-allowed factor to bring it to an equivalent allowed claims basis and adjusted further for the composite effect of catastrophic eligibility and benefits in addition to EHB.

X. Plan Adjusted Index Rate [PAIR]

The Plan Adjusted Index Rates can be found on line 3.10, Worksheet 2 of the URRT. The PAIR rates are calculated by applying the allowable rating factors as described below to the Market Adjusted Index Rate.

X.1 AV and Cost Sharing Design of Plan

The AV and Cost Sharing allowable rating factor is comprised of the following components:

- The utilization due to differences in cost sharing is based on the factors calculated using a methodology prescribed in the Department's guidance relative to the weighted average. No differences due to health status are in these adjustments.
- The pricing AV for the benefits and cost sharing of the plan and a CSR load for the on exchange silver plans.

Impact of Non-Payment of Cost Sharing Reduction Subsidies

In accordance with the Department's guidance, we have applied an additional adjustment to our AV pricing values for those Silver plans not offered exclusively off-exchange. This adjustment factor was 1.25 and represents the non-payment of Cost Sharing Reduction subsidies.

X.2 Provider Network Adjustment

The provider network adjustments are developed by dividing the plan level network factors by the overall weighted average from all plans.

X.3 Benefits in Addition to EHB

Non-EHB benefits are offered in several plans. Six plans have an adult dental and vision benefit, two plans have an adult vision exam benefit, and six plans have a hearing benefit.

X.4 Administrative Expense

The proposed rates reflect internal administrative costs including quality improvement administrative expenses. This cost was developed based on standard expense allocation methods.

X.5 Taxes and Fees:

The following fees were added:

- \$0.18 PMPM for Risk Adjustment User Fee
- \$0.31 PMPM for Patient Centered Outcomes Research Institute (PCORI) Fee
- 0.0% for the Health Insurance Provider Fee
- 0.0% for the PA Premium Tax

X.6 Profit (or Contribution to Surplus) & Risk Margin:

HCA has voluntarily refrained from including a risk and contingency factor in this filing. By this voluntary restraint, HCA is not waiving any right to include a risk and contingency factor which HCA believes is consistent with historical and legal interpretations of HCA and the Pennsylvania Insurance Department.

X.7 Catastrophic Adjustment

For catastrophic plans, we use a 0.92 factor for the specific eligibility adjustment.

XI. Calibration

XI.1 Age Curve Calibration:

The projected weighted average age factor for billable members is 1.7058. This factor is calculated by dividing the all members age factor of 1.7045 by the ratio of billable members to total members 0.9992. The age curve calibration factor is 1/1.7058 = 0.5862.

XI.2 Geographic Calibration Factor:

The projected weighted average geographic factor is 0.940. Each Plan Adjusted Index Rate represents the rate for an average member with a geographic factor of 0.940. The geographic calibration factor is 1/0.940 = 1.0638.

XI.3 Tobacco Calibration Factor:

The projected weighted average tobacco factor is 1.0060. Each Plan Adjusted Index Rate represents the rate for an average member with a tobacco factor of 1.0060. The tobacco calibration factor is 1/1.0060 = 0.9940.

XI.4 Consumer Adjusted Premium Rate Development:

The calibrated plan adjusted index rate represents the base rate for an age factor of 1.0, geographic rating factor of 1.0 and tobacco rating factor of 1.0. Thus, the approximate premium for a specific member can be derived by multiplying this rate by the HHS age curve factor, the rating area factor on Worksheet 3 of the URRT, and the appropriate tobacco factor. Please note that this method will only produce approximate rates due to URRT rounding constraints.

XII. Projected Loss Ratio

The projected loss ratio for 2025 using the federally-prescribed MLR methodology is 90.4%.

XIII. AV Metal Values

The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based the Federal AV Calculator. Some plans did require an adjustment to the inputs entered into the AV calculator. Screen shots and certifications for these plans were submitted as part of HCA's QHP application. When applicable and per CMS's guidance, a dummy AV Metal Value was applied to any terminated plans that fell out of the new de minimis range.

XIV. Membership Projections

Membership projections reflect HCA's expectations for 2025. These projections reflect expected changes in market share due to market competition, relative price levels, and changes in plan offerings (where applicable).

HCA expects membership in 2025 to follow a similar metal level distribution as the Individual ACA experience period in the markets where plans will continue to be offered.

For the Silver level plans, the projected membership by cost sharing subsidy levels is based on the observed distribution of ACA members that were eligible under the federal poverty levels as determined by the federal health insurance exchange. The projected enrollment by plan and subsidy level is as follows:

	CSR Silver Plan Membership Distribution										
FPL	Subsidy Level	% of Silver Membership	% of Total Membership								
<150%	94%	49.9%	10.7%								
150%-200%	87%	40.5%	8.7%								
200%-250%	73%	1.0%	0.2%								
<u>>250%</u>	<u>70%</u>	<u>8.6%</u>	<u>1.8%</u>								
Total		100.0%	21.4%								

XV. Terminated Plans and Products

Plans in the 2023 experience period that will no longer be available in 2025 can be found in Exhibit I.

XVI. Plan Type

The Plan types listed in Worksheet 2, Section I of the Part I Unified Rate Review Template describe HCA's plans adequately.

XVII. Actuarial Certification

I, am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. All statements in this actuarial certification are accurate to the best of my knowledge and understanding. This filing is prepared in compliance with applicable Actuarial Standards of Practice. In completing this filing, I relied on data/information from other sources which was reviewed for reasonableness. This filing is prepared on behalf of HCA to accompany its rate filing for the Individual Market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102),
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that the AV Calculator was used to determine the AV Metal Values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based on the Federal AV Calculator. If any adjustments were required outside of the AV Calculator, appropriate certification has been provided to CMS through the QHP application process.

I certify that the geographic rating reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by HCA to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for Federally facilitated exchanges and for certification that the index rate is developed in

accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

Signed:
